Snippet2 Debug

Original code:

```
def findTotal(a):  
for i in a  
print(sum(i)*2)
```

Debug:

1. First of all, i noticed the code indent was not correct for line 2 and 3.
2. Then i notice the loop i is missing ":" .

Fix:

1. Line 2 belong to function so indent it once, line 3 belong to line 2 so indent it twice.
2. Add ":" at the end of line 2
